STAND UP 4 TRANSPORTATION

NATIONAL TRANSPORTATION INFRASTRUCTURE DAY
APRIL 9, 2015

YOU ARE INVITED!

On **APRIL 9, 2015** the Missouri Public Transit Association and the Missouri Rural Health Association will present HealthTran. HealthTran is a new transportation model that improves access to healthcare. HealthTran uses the services of local transportation coordinators to help patients navigate the complex transportation options and assure they get necessary health care, including preventive primary care, behavioral health services, dental service, and specialty services. The counties served by HealthTran include: Christian, Douglas, Howell, Oregon, Ozark, Taney, Texas, Webster and Wright.

Please join us on April 9 to learn more about the wonderful results that have been achieved to date and how you can Stand Up 4 Transportation, by seeking support from local legislators and Congressmen to ensure that public transportation gets the resources it needs to serve the people in our community. We will be sharing real stories by real people from your region.

HealthTran is in the spotlight nationally,

**SO COME OUT AND SEE WHAT ALL THE
EXCITEMENT IS ABOUT!**
